

Welcome to the July 2010 Issue of EUGRIS e-news

As usual there have been many interesting projects, resources and news items posted to eugris in recent weeks, please take a few moments to review the list below this message.

You will find the following useful information on the EUGRIS website:

- o More than 80 general technical information zones related to soil and water
- o 6 country contaminated land and water management information zones
- o 3794 resources (document, software, hardware and web site listings)
- o 59 funding programmes listings
- o 319 R&D project listings
- o 475 organisations listings
- o 390 current news items as well as conference / training listings
- o A glossary of 506 terms, often linked to national definitions and translations

EUGRIS has 3328 registered users from all over the world and many many more casual visitors.

Please feel free to forward this email to any friends or colleagues who you think may be interested in the eugris website.

Best wishes

The EUGRIS Team

\*\*\*\*\* IMPORTANT ANNOUNCEMENT \*\*\*\*\*

US and EU Perspectives on Green and Sustainable Remediation Sponsored by: US EPA

<http://www.clu-in.org/conf/tio/grconsoil/>

Sustainable remediation is the practice of considering environmental, social, and economic impacts when restoring contaminated sites to productive use. During ConSoil 2010 (September 22-24, 2010, in Salzburg, Austria) a special session entitled "Sustainable Remediation: International Developments" will take place, focusing on the state of international implementation of sustainable environmental remediation ([www.consoil.de](http://www.consoil.de)). On July 12th, an interactive Internet Seminar will be hosted as a primer to the ConSoil session, wherein international leaders of sustainable and green remediation efforts will discuss their drivers and constraints as well as the impacts of these opportunities and issues on their efforts. An open forum will be held after the presentations in which participants will be able to submit questions to the speakers. The panel will include representatives from the following organizations:

U.S. Environmental Protection Agency (EPA); Environment Canada; Sustainable Remediation Forum (SURF) United States, United Kingdom, and the Netherlands; EURODEMO+; Network for Industrially Contaminated Land in Europe (NICOLE); and the Common Forum on Contaminated Land in Europe.
