

Welcome to the September 2016 Issue of EUGRIS e-news, your chance to catch up with postings to EUGRIS over the last month.

Please feel free to forward this email to any friends or colleagues who you think may be interested in the eugris website. Links to all of these items can be found at <http://www.eugris.info/Whatsnew.asp>.

\*\*\*\* Special Announcement One: The environmental industry's standout event of the year \*\*\*

On the 12th and 13th of October representative from environmental organisations will brandish their free tickets and funnel into the Excel London conference centre to share their innovations and insight at the standout event in the environmental industry's calendar - the Contamination Expo Series.

The show combines six exhibitions in one, with guests able to filter between the Land Remediation Expo, Hazardous Materials Expo, Spill Response Expo, Clean Air Technology Expo, Geotechnical Expo, and Nuclear Decommissioning Expo as they please.

Over the two-day event, those in attendance will benefit from 120 hours of CPD-accredited, free-to-attend seminars, the insight of over 150 innovative exhibitors and unparalleled networking opportunities with visitors from the public and private sectors including practitioners, consultants and academics.

Free tickets for this year's inaugural event are only available from the Contamination Expo website <http://www.landremediationexpo.com>. And with the major players from across the industry in attendance, each ticket is likely to prove priceless.

\*\*\* Special Announcement Two: \*\*\*\*\*

The 14th International AquaConSoil Conference will focus on sustainable use and management of soil, sediment and water resources. AquaConSoil 2017 provides great opportunities for scientists, companies and policy makers to extend and enforce their network, start new cooperation activities and be informed of and inspired by the latest developments in the field of sustainable use and management of soil, sediment and (ground) water resources.

The Call for Abstracts is open from September 1st - November 15th 2016. Delegates are invited to contribute to the conference to submit an abstract for an oral presentation, a poster presentation or a full free session proposal.

AquaConSoil2017 will take place in the Convention Centre in Lyon between 26 June and 30 June 2017, and is organized by Deltares, in cooperation with the local French consortium of scientists, policy makers and consultants coordinated by BRGM.

Please see the AquaConSoil website for further details and instructions for abstract submission: <http://www.aquaconsoil.org>.

Best wishes

The EUGRIS Team
